

FIELD WORKSPACE FOR FIRE ALARM PROFESSIONALS

FireVault Pro — Product Fact Sheet

A native field workspace that keeps customer records, notes, photos, scanned documents, important site locations and trip history organized around the account — ready when the technician returns.

PRODUCT	DEVELOPER	LAUNCH	PLATFORM
FireVault Pro	Bannerman US LLC	October 1, 2026	iPhone + iPad
CATEGORY	AVAILABILITY	LANGUAGE	PRICING
Business + Productivity	International	English at launch	\$9.99/mo \$99.99/yr

PRODUCT OVERVIEW

FireVault Pro was designed around real fire alarm service work rather than adapting a generic field-management platform. It gives technicians one place to preserve site knowledge and service history, while extending access across iPhone, iPad, CarPlay and a companion web portal.

KNOW THE SITE	KEEP THE HISTORY
Save panel, riser, entrance and technician-parking locations with the account.	Keep notes, photos, scans, documents and site information organized by customer.
DOCUMENT THE DAY	TAKE IT WITH YOU
GPS Trip Log, reports and automatic field media backup help preserve the workday.	Native iPhone + iPad access, CarPlay support and the companion web portal keep information close at hand.

FOUNDER

David Bannerman is a low-voltage systems professional with more than 40 years of technical field experience spanning alarm, security and related low-voltage technologies, with the past decade focused primarily on fire alarm service. FireVault Pro grew from problems encountered firsthand in the field.
